## MOST INTERESTING OF WORLD'S SIGHTS

Says Dr. Kuntze Of Our Living Volcano Kilauea.

## SCIENTIST IS CRITICAL OF ADVERTISING LITERATURE

BECAUSE HE DIDN'T SEE ANY FIRE — HAS VIEWED MANY VOLCANOES BUT HE OBJECTS TO PRICE.

Among the passengers who will sail for San Francisco in the Sierra this afternoon is Dr. Otto Kuntze, a distinguished German scientist, who is at present making a tour around the world for the purpose of visiting all the most prominent volcanoes. Dr. Kuntze has already visited a great many. He has now added Kilauea to their number. Dr. Kuntze is a prominent scientist in Europe, where he has published many works in French, German and English dealing with scientific subjects. His specialties are botany and geology.

After his visit to Kilauea Dr. Kuntze wrote the following article on the subject:

## VOLCANO KILAUEA WITHOUT FIRE, NOW FUMAROLE ONLY.

I add to page 4 of the Hawaii travelling prospectus of the Promotion Committee the following remarks:

(1) Kilauea is now a tame volcano, because it is repelling or extinct and emits only water-steam with sulphur acid like other repelling volcanoes. I have seen and visited the volcanoes of Europe (Vesuvius, Etna, Lipari), on the Canary Islands (Peak of Teneriffe, Caldera di Palma), West Indies (Martinique, Pelee), the same name as that of the Hawaiian goddess of volcanoes; Costa Rica (Irazu), Venezuela (Silla de Caracas), Bolivia and Chile (many volcanoes on the 12,000-foot high Puna; in Japan (Fusujima), on Java (Pangarango, Merapi and others), etc., but I cannot find any difference in this line between the recent Kilauea with other volcanoes.

The Kilauea is also called "tame" by mistake of some scientists who take for an active crater the former fire lake in a depression of the extinct old volcano, which the lava of the inner crater of Halemauana formerly run into. But the former fire lake could be approached like the glowing lava streams of other volcanoes. At the edges of such lava streams as that of Vesuvius the Italians form medals for remembrance out of the glowing lava aside the occurring fire streams; so I did also once there myself.

(2) If the crater should open again it would hardly be without explosion, and also earthquakes such as are occurring at times here, as was the case. (Continued on Page 5.)

## CABLE TO CHEFOO BELIEVED TO BE CUT BY JAPANESE

Among the men at the cable office the interruption of cable communication between Chefoo and Hongkong is regarded as the cause for the sudden dearth of war news. It is believed the cable has been cut by the Japanese to prevent reports of movements about Port Arthur becoming known to the general public. The campaign now on should result in a great success or failure for the Japanese forces surrounding the port and the operations are going forward under the greatest secrecy possible. On the other hand it is thought the Japanese may have met with severe reverse and are using every measure to keep exact news going out till they secure reinforcements.

## MASONIC LODGES TO CELEBRATE ST. JOHN'S DAY

The three Blue lodges of the Masonic fraternity will unite this year in celebrating the midsummer St. John's Day with appropriate ceremonies. This day has previously been celebrated only by Lodge Le Progres, which is under the French jurisdiction. This year Le Progres, Hawaiian and Pacific have come together for a joint celebration, which will be held in the Masonic Temple Friday evening.

## DAVIS APPLIES AGAIN ADMISSION TO BAR

Geo. A. Davis made formal application in the Supreme Court yesterday afternoon for readmission to the practice of law in the courts of this Territory. Attached to the application was a letter to Mr. Davis from C. H. Robb, acting attorney general of the United States. In presenting this new application Mr. Davis pointed out that he is today a practitioner in the United States District Court here, the Court of Appeals at San Francisco, and the Supreme Court at Washington. He asks for full reinstatement.

The Chief Justice requested Mr. Davis to appear at 10 o'clock tomorrow in the matter.

## CELEBRATE THE FOURTH

A meeting of citizens interested in a proper celebration of the Fourth of July is called for 11 o'clock tomorrow forenoon in the Throne room of the Capitol.

## KUMALAE TESTIFIES CLAIMS JOHNSON WAS CLERK OF COMMITTEE

APPEARS THAT THE FIRE CLAIMS COMMITTEE HAD TWO CLERKS EMPLOYED DOING THE SAME WORK.

The defense in the Kumalae-Johnson conspiracy case got down to the meat of the case this afternoon in the testimony offered by Jonah Kumalae, who was chairman of the Chinese Fund Committee in the 1903 session of the Legislature. Kumalae said that he had attended all the meetings of the committee except one. Early in the history of the work of the committee he had called on Mr. Johnson and asked him to be secretary of the committee and a part of his duties were to prepare the final report of the committee. The compensation agreed upon was \$5 per day.

Kumalae said on the stand that Johnson was never present at the meetings because the committee wished to keep its deliberations secret. Mr. Kumalae said he took down notes in long hand and turned them over to Secretary Johnson, who rewrote them into better English.

Kumalae testified that there had never been an arrangement whereby Chillingworth and Long were to work as a sub-committee. The only ground for this claim was one occasion when the committee was due to make certain inquiries at the First National Bank. Kumalae had another important meeting on hand and said it would be all right for the two to go ahead on this one mission.

Kumalae said he was very much astonished when the Givrin report came in. Johnson, as secretary, had already completed his report and Kumalae insisted that Johnson's report was the official document. Kumalae said he took the Givrin report and with Johnson compared the two, in the end adopting the Givrin report with certain amendments as the committee's report, being governed by the fact that Givrin's was the better English.

The witness was still on the stand at 3 o'clock.

Other witnesses examined this afternoon were Makinal, assistant clerk of the House, and Meheula.

Meheula's testimony came to a close when he refused to answer a question concerning a certain voucher because his answer might incriminate himself.

## MOVING TARGET TO IMPROVE POLICE SHOTS

A new target shooting arrangement was this afternoon tried for the first time at the police department's shooting butts at Kakaako, makai of the Honolulu Iron Works. Armorer Elvin has for the past few days been busy arranging a moving target for the police officers to practice on.

The target consists of a black figure of a man, life size, standing clearly silhouetted against a white field. By means of a string and pulley arrangement the figure is moved from side to side. Two trustees manipulate the ropes and keep the figure going at as even a speed as possible.

## Your Wife As Executor

In the administration of an estate we act with another appointee if desired. For example, your wife can be made one of your executors, and as the other we would relieve her of the arduous part of the work and keep the estate clear of legal entanglements. Consultation about it will cost you nothing.

# REPUBLICAN HOSTS MEET

## Roosevelt Received Cardinal Satoli

[Associated Press Special Cable.] WASHINGTON, D. C., June 21.—President Roosevelt today received Cardinal Satoli.

## Chefoo-Hongkong Cable Interrupted

[Associated Press Special Cable.] NEW YORK, N. Y., June 21.—The cable between Chefoo and Hongkong is interrupted.

SAN FRANCISCO, Cal., June 20.—SUGAR: 88 analysis Beets, 9s 11-12d. Previous quotation, 9s 3-4d.

The men are shooting under the instructions of Armorer Elvin, who is himself an expert shot. A heavy 44-caliber revolver is used. Elvin gives each man directions how to use the weapon most effectively and gradually the cops are becoming fair shots, some of them even very good ones.

This afternoon the second watch had the first try at the moving target. Heretofore only the ordinary stationary bull's-eye targets have been used. In spite of the fact that the moving target was completely new to the men, most of them plunked holes enough in the "man" to be sufficient to prevent him from "running away." Several of the men made some really very good shots. Elvin himself took a try at the moving figure and planted three shots in succession in his breast, one right above the other. All the police officers will be given a chance to practice at this new target.

## HOLLOWAY'S TRIP AND THE FUTURE

Superintendent C. S. Holloway, while busy with the many details that are pressing him every day, is casting occasional glances toward the next regular session of the Legislature. He has a lot of things to do now but is planning ahead for more extensive campaigns of public improvements throughout the islands.

Mr. Holloway's recent trip to the island of Hawaii was devoted to the dual task of looking after immediate wants and of taking a squint at things generally, so he could inform a Legislature what that island needs, no matter how forgetful may be the different representatives of the various districts of their own necessities.

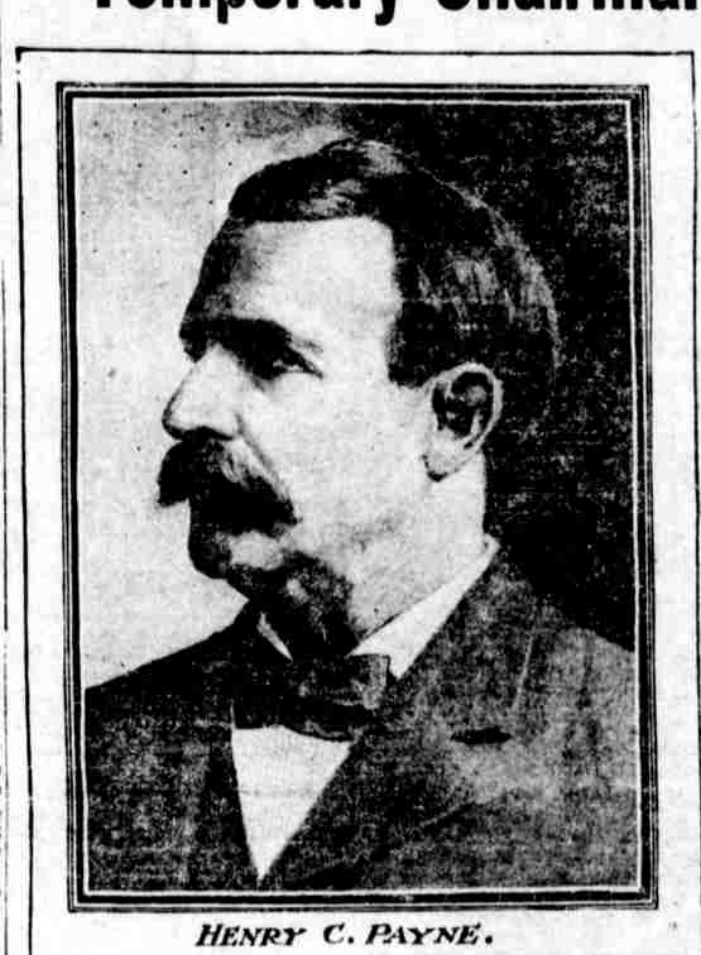

When Mr. Holloway went over Volcano road he put that highway down both for immediate and for future consideration. He jolted over that short stretch which has been an eyesore for so many years and made arrangements whereby it can be partially repaired with a portion of the allowance of the Puna Road Board.

"The Volcano to Hilo road should be rebuilt from end to end," said Mr. Holloway, "and properly drained. Yes; I will make some recommendations on this road to the next Legislature. In fact, I shall have a good many recommendations to make and am wondering already how they will be supported."

"The road from Hilo to Hamakua is in a fearfully bad shape and will require the expenditure of a lot of money to fix it up right. There is little use to make repairs under the system now in vogue. The dumping of stone in the holes along the road does not do very much good."

Mr. Holloway was pleased with the progress of the work on the Volcano-Pahala road under contract to Benton & Arlio. There is a stretch of lava road along the Kahuku ranch which when top-dressed will make a long stretch of excellent road through the Kau District. Several contracts have been awarded by the Superintendent of Public Works during the past two days. The contract for top-dressing the Huihul

## Convention Meets With Elihu Root Temporary Chairman

HENRY C. PAYNE.

CHICAGO, Ill., June 21.—The Republican National Convention opened its session today. The great assembly of delegates was called to order by Vice Chairman Payne of the National Committee. Rev. Timothy Frost, a Methodist divine, offered the opening prayer and the Convention proceeded immediately with the routine of business.

Hon. Elihu Root, former Secretary of War, was named unanimously for temporary chairman.

The National Committeemen named by the State and Territorial delegations, including A. G. M. Robertson for Hawaii, were approved. Porto Rico was granted two delegates in the Convention and the Philippines six delegates with two votes. The first session of the Convention then adjourned.

Governor Carter of Hawaii has been elected Secretary of the Committee on Permanent Organization. Senator McGowan is Chairman of the Committee on Credentials which has the claims of sixteen contesting delegations to pass upon.

Delegate Kuhio has been named a member of the Committee on Resolutions.

## PASSENGERS DEPARTED.

For Maui, Kona and Kau ports, per ship, Mauna Loa, June 21.—Mrs. Lalara and child, Miss Ida Yowell, Mary Edwards, J. R. Paris, H. B. Giffard, Helen Recard, Mrs. Recard, Mary Recard, Abel Lino, Mrs. J. Dow and child, Miss Paris, Miss Ashford, E. Duvauchelle, Chas. A. Akamu, John Hoopale, Mrs. E. Wood, Miss Alice Beard, Miss Hatfield, Miss Amy Moorman, Henry Highton, F. H. Hayselden, Sister Alberlina, May Williams, Miss Taggart, Augusta Muller, Miss Alice Muller, Albert McDougall, Walter McDougall, Louisa de Mello, Carrie de Mello, W. Wolters.

The Hilo land case occupied the center of the stage in Judge Gear's court this forenoon from 9 o'clock to 12. Ben. H. Brown was on the witness stand all the morning.
